# Preface...

With immense pride, I present the Academic & Research Activities of 2025 from NRI Medical College & General Hospital, celebrating our collective pursuit of excellence.

An institution's legacy is forged not merely by its state-of-the-art facilities, but by the intellectual fire of its faculty that ignites the research minds in transforming patient care along with exploration of new medical frontiers.

These pages illuminate the stellar contributions of every department of NRI Medical college. Senior faculty lead with vision, pioneering studies and instilling the discipline of inquiry and innovation in junior staff and students. Their peer-reviewed publications disseminate the cutting-edge knowledge, directly advancing the societal health.

By championing participation in CMEs, Workshops, and Conferences, our faculty and students empower emerging talents to collaborate with global experts and amplify their voices.

I salute every faculty member's dedication and call for redoubled zeal to harvest even greater accolades for our institution in the coming years. Am sure this momentum will cement NRI Medical College as a beacon of medical leadership in India.

Heartfelt thanks to our Management and Administration for their pivotal support in nurturing this thriving academic ecosystem.

A handwritten signature in green ink that reads "Lakshmi".
